Politique Environnementale

## ENVIRONMENTAL POLICY

### PHILOSOPHY

For M1 Composites, responsible stewardship of the environment is both an obligation and a corporate priority, and it is part of our commitment to sustainable development. We recognize that the long-term future of our business and the communities in which we operate depends on the sustainability of natural resources and the performance of our facilities.

### RESPONSIBILITY

The leadership of M1 Composites is responsible for ensuring that practices comply with environmental laws and policies.

Our environmental committee constantly assesses our performance (natural gas, electricity, waste), and encourages environmental initiatives such as the reuse of packaging materials.

At M1 Composites, we are committed to:

- Comply with the requirements of applicable environmental laws and regulations
- Implement and maintain a comprehensive waste management system
- Control the risks in order to prevent pollution
- Identify and adopt best environmental practices
- Sustainably manage natural resources by focusing on pollution prevention, waste reduction, material reuse as much as possible and recycling plastics, paper and metals
- Work in collaboration with our suppliers to encourage them to reduce their environmental footprint
- Promote the use of renewable resources and optimize the use of non-renewable resources
- Reduce our use of paper by half by the end of 2025
